Tyks Salo hospital Maternity Outpatient Clinic antenatal screening appointment booking and preparation

Booking your appointment

You can book your Tyks Salo hospital Maternity Outpatient Clinic antenatal screening appointment online at [Tyks appointment service | Tyks](#). Using the service requires strong authentication by using online banking login or Mobile ID.

Please note that

- You can only book an appointment a couple of days after your appointment with your nurse.
- The time of the screening is clearly defined. The ultrasound scans take place at 12 and 20 weeks of pregnancy at the earliest.
- The booking program will automatically suggest the best time for your screening when the screening result will be most reliable.
- Changing or cancelling the appointment is possible for up to 24 hours before the appointment.
- You can only change your booking once. Please make sure that it takes place at the correct week of pregnancy.
- If you have problems with the booking system, you can contact the [Maternity Outpatient Clinic, Salo | Tyks](#).

Preparing for the screening

Please make sure that you have prepared for your appointment by:

- Filling the iPana online preliminary information form.
- Ensuring you have your maternity card (either paper version or a printout of your electronic maternity card) and your Kela card with you.
- Removing any jewelry around the abdominal area before the screening.
- Arriving early to make sure you have enough time to sign in before the appointment.

Arriving at the hospital

Use the main entrance, Sairaalan tie 9, Salo. Sign in for your appointment at the outpatient registration desk on the second floor. The Tyks Salo hospital Maternity Outpatient Clinic is

located on the 5th floor. You can have 1 to 2 adult support persons with you at the antenatal screening. Unfortunately, children cannot accompany you to the appointment.

Tyks digital care pathway for pregnancy and labour

In the Tyks Digital Care Pathway for Pregnancy and Labour, you will find information about pregnancy, preparing for childbirth, delivery, and postpartum recovery. After scheduling an antenatal screening appointment, you will receive instructions on registering for the Omapolku service on Terveyskylä after a short period. You can access the digital care pathway through the Omapolku mobile application, or via browser at www.terveyskyla.fi/omapolku.
